

# SCIENTIFIC AGRICULTURE

LA REVUE AGRONOMIQUE CANADIENNE

---

VOLUME XXI

---

*September 1940 - August 1941*

LIBRARY  
PURDUE UNIVERSITY  
AGRICULTURAL EXPERIMENT STATION  
LAFAYETTE, INDIANA

EDITED BY THE  
CANADIAN SOCIETY OF TECHNICAL AGRICULTURISTS AT  
OTTAWA, CANADA

*Published monthly by the authority of the  
Chairman of the National Committee on Agricultural Services*

Digitized by the Internet Archive  
in 2024

# SUBJECT INDEX TO VOLUME XXI

	Page
Agglutination tests for pullorum disease, Comparison of the whole blood and tube	335
<i>Agropyron</i> , Intergeneric crosses between <i>Triticum</i> and.....	198
Alfalfa as a medium of weed introduction, Turkestan.....	36
Alfalfa, Yield and chemical composition of pure species, strains and mixtures of grasses, clovers and.....	117
Apple waxing experiments.....	70
Apple yields for differences in size of tree, Adjusting.....	139
Apples, False sting—a virus disease of.....	242
Apples, Thinning as a means of correcting biennial bearing in.....	105
Assessment, The Saskatchewan system of rural land.....	361
Barley in market hog rations, Protein-mineral-vitamin supplements to.....	613
Barley, The effect of having rows different distances apart in rod row plot tests of wheat, oats and.....	589
Bechtel's crab on some Malling rootstocks, Compatibility of.....	687
Bone meal and of premixing of feeds, The relative value of certain cereal grains, of, Methods and rations for fattening poultry. IV.....	517
Bovine haematuria in British Columbia, The distribution of bracken in its possible relation to.....	703
Bracken in its possible relation to bovine haematuria in British Columbia, The distribution of.....	703
Butter, Water supplies in relation to surface taint.....	133
Calcium by the chicken embryo, Evidence of a sex differential in the utilization of shell.....	315
Caponizing for production of roasters, The comparative economy of range rearing, crate fattening and, Methods and rations for fattening poultry, VI.....	711
Carcass characteristics of lambs as determined by feeding trials and carcass tests, The effect of breeding on feedlot performance and.....	153
Cereal grains, of bone meal and of premixing of feeds, The relative value of certain, Methods and rations for fattening poultry. IV.....	517
Chemical composition of tomatoes, The effect of climate in British Columbia on the Chicken embryo, Evidence of a sex differential in the utilization of shell calcium by the.....	679 315
Clover, Investigations concerning the coumarin content of sweet, I. The breeding of a low-coumarin line of sweet clover— <i>Melilotus alba</i> .....	18
Clover, Investigations concerning the coumarin content of sweet, II. Sources of variation in tests for coumarin content.....	29
Clover taint in wheat, A note on sweet.....	684
Clovers and alfalfa, Yield and chemical composition of pure species, strains and mixtures of grasses.....	117
Corn, of skim milk and water, and of varying temperatures, The comparative effect of hulled oats and yellow, Methods and rations for fattening poultry. V.....	607
Cotton with methyl bromide, Fumigation of wet.....	584
Coumarin content of sweet clover, Investigations concerning the, I. The breeding of a low-coumarin line of sweet clover— <i>Melilotus alba</i> .....	18
Coumarin content of sweet clover, Investigations concerning the, II. Sources of variation in tests for coumarin content.....	29
Crops upon those which follow, The influence of.....	522

	Page
Decomposition of plant roots, The rate of.....	429
Drought on wheat plants, Effect of soil.....	320
Drought, The relative values of seed injured by rust, frost or.....	307
Eggs of the domestic fowl, The relation of specific gravity to hatching power in...	53
Erosion of soils in relation to size and nature of the exposed area, Wind.....	479
Erosion to the dry aggregate structure of a soil, Relation of wind.....	488
False sting—a virus disease of apples.....	242
Feeds, The relative value of certain cereal grains, of bone meal and of premixing of, Methods and rations for fattening poultry. IV.....	517
Flaxseed, Western Canadian.....	727
Forest restoration in the U.S., The economics of.....	419
Fowl, The relation of specific gravity to hatching power in eggs of the domestic...	53
Frost or drought, The relative values of seed injured by rust.....	307
Fumigation of wet cotton with methyl bromide.....	584
Fungicides used for treating cereal seeds and their influence on growth, The disin- fecting value of.....	717
Grasses, clovers and alfalfa, Yield and chemical composition of pure species, strains and mixtures of.....	117
Hog rations, Protein-mineral-vitamin supplements to barley in market.....	613
Honey within the supers, Variation of moisture content of.....	80
Honeybee, A dipterous parasite ( <i>Myopa</i> sp.) of the.....	244
Insecticidal value of certain plant extracts, more particularly those of <i>Delphinium</i> <i>Brownii</i> Rydberg, Some preliminary experiments on the.....	776
Invertase in plants as a measure of available soil nitrogen.....	508
Lambs as determined by feeding trials and carcass tests, The effect of breeding on feedlot performance and carcass characteristics of.....	153
Land assessment, The Saskatchewan system of rural.....	361
Land classification in Western Canada.....	378
Land policy: Manitoba, Practical difficulties in the development of a scientific...	395
Land tenure problems.....	388
Land valuation, The theory of farm.....	402
Live stock by tattooing, The identification of.....	180
Loans in Western Canada, Factors affecting the success of farm mortgage.....	368
Lodging, Certain oat culm characters and their relationship to.....	646
Manganese in Appalachian podsol soil, Seasonal changes in easily-soluble.....	89
Methyl bromide, Fumigation of wet cotton with.....	584
Mineral-vitamin supplements to barley in market hog rations, Protein.....	613
Moisture measurements and mechanical analysis, Some relationships between, Soil moisture studies. II.....	459
Moisture measurements to soils classification, An application of soil, Soil moisture studies. III.....	473
Mortgage loans in Western Canada, Factors affecting the success of farm.....	368
Nematode- <i>Ditylenchus dipsaci</i> from <i>Tropaeolum polyphyllum</i> , a new host, to pota- toes, Transfer of the bulb.....	115
Nitrogen, Invertase in plants as a measure of available soil.....	508
Nutritional value of wheat germ products for swine, A study of the.....	750

	Page
Oat culm characters and their relationship to lodging, Certain.....	646
Oats and barley, The effect of having rows different distances apart in rod row plot tests of wheat.....	589
Oats and yellow corn, of skim milk and water, and of varying temperatures, The comparative effect of hulled, Methods and rations for fattening poultry, V.....	607
Organic matter of uncultivated and cultivated Appalachian upland podsol soils, A comparison of the.....	121
Parasite ( <i>Myopa</i> sp.) of the honeybee, A dipterous.....	244
Pasture, Experiments on old bluegrass.....	237
Pasture hummocks.....	63
Pasture studies. XVIII. The availability, utilization and fixation of potassium applied to permanent pastures.....	448
Peaches, Maturity and storage studies with.....	1
Peaches, Studies in maturity and cold storage of.....	624
Phosphatic fertilizers on common rootrot, The effect of.....	44
Phosphorus in a soil of the Appalachian upland podsolized type, Observations on the easily-soluble.....	92
Potassium applied to permanent pastures, The availability, utilization and fixation of, Pasture studies. XVIII.....	448
Potato, Pathogenicity tests on sugar beets of random isolates of <i>Rhizoctonia Solani</i> Kühn from.....	746
Potatoes, Transfer of the bulb nematode- <i>Ditylenchus dipsaci</i> from <i>Tropaeolum polyphyllum</i> , a new host, to.....	115
Poultry, Methods and rations for fattening, III. The effects of various fats, number of feedings and length of fattening period.....	350
Poultry, Methods and rations for fattening. IV. The relative value of certain cereal grains, of bone meal and of premixing of feeds.....	517
Poultry, Methods and rations for fattening. V. The comparative effect of hulled oats and yellow corn, of skim milk and water, and of varying temperatures....	607
Poultry, Methods and rations for fattening. VI. The comparative economy of range rearing, crate fattening and caponizing for production of roasters.....	711
Protein-mineral-vitamin supplements to barley in market hog rations.....	613
Pullorum disease, Comparison of the whole blood and tube agglutination tests for..	335
Rootrot, The effect of phosphatic fertilizers on common.....	44
Roots, The rate of decomposition of plant.....	429
Rootstocks, Compatibility of Bechtel's crab on some Malling.....	687
Rust, frost or drought, The relative values of seed injured by.....	307
Sawfly identified by means of its cytology and parthenogenesis, A new form of spruce.....	245
Seed injured by rust, frost or drought, The relative values of.....	307
Seed mixer and sampler, A new.....	233
Seed testing from the pathological standpoint with special reference to embryo exposure, Wheat.....	761
Seeds and their influence on growth, The disinfecting value of fungicides used for treating cereal.....	717
Sheep, A note on the effect of multiple births on the sex ratio in.....	759
Soil drought on wheat plants, Effect of.....	320
Soil fertility survey by rapid chemical tests, A.....	433
Soil moisture studies. II. Some relationships between moisture measurements and mechanical analysis.....	459
Soil Moisture studies. III. An application of soil moisture measurements to soils classification.....	473

	Page
Soil moisture studies in southwestern Saskatchewan, The use of the wilting coefficient in.....	440
Soil nitrogen, Invertase in plants as a measure of available.....	508
Soil of the Appalachian upland podsolized type, Observations on the easily-soluble phosphorus in a.....	92
Soil, Relation of wind erosion to the dry aggregate structure of a.....	488
Soil, Seasonal changes in easily-soluble manganese in Appalachian podsol.....	89
Soils, A comparison of the organic matter of uncultivated and cultivated Appalachian upland podsol.....	121
Soils in relation to size and nature of the exposed area, Wind erosion of.....	479
Spruce sawfly identified by means of its cytology and parthenogenesis, A new form of	245
Standard errors for treatment means after adjustment for regression, A note on the calculation of.....	358
Storage of peaches, Studies in maturity and cold.....	624
Storage studies with peaches, Maturity and.....	1
Sugar beets of random isolates of <i>Rhizoctonia Solani</i> Kühn from potato, Pathogenicity tests on.....	746
Sunflower ( <i>Helianthus annus</i> L.), Investigations of breeding technique for the....	689
Sunflower ( <i>Helianthus annus</i> L.), Observations on morphological characters and flowering processes in the .....	167
Swine, A study of the nutritional value of wheat germ products for.....	750
 Tattooing, The identification of live stock by.....	 180
Tenure problems, Land.....	388
Tomatoes, The effect of climate in British Columbia on the chemical composition of.....	679
<i>Triticum</i> and <i>Agropyron</i> , Intergeneric crosses between.....	198
 Vitamin supplements to barley in market hog rations, Protein-mineral-.....	 613
 Water supplies in relation to surface taint butter.....	 133
Waxing experiments, Apple.....	70
Weed introduction, Turkestan alfalfa as a medium of .....	36
Wheat, A note on sweet clover taint in.....	684
Wheat germ products for swine, A study of the nutritional value of.....	750
Wheat, oats and barley, The effect of having rows different distances apart in rod row plot tests of.....	589
Wheat plants, Effect of soil drought on.....	320
Wheat seed testing from the pathological standpoint with special reference to embryo exposure.....	761
Wilting coefficient in soil moisture studies in southwestern Saskatchewan, The use of the.....	440
